☑ Include Rank in Feedback

Assessment settings

- **Activate:** Enable feedback in the 'Settings' of assessments.
- **Set Timing:** Choose between immediate feedback or set a specific time (3 to 30 days) post-assessment.
- **Individual Feedback:** Admins can also manually trigger feedback via candidate report cards.
- **Email Customisation:** Tailor the default email template to convey personalized messages.
- **Rank Removal:** Optionally remove the candidate's rank from the feedback through settings.
- **Visual Confirmation:** A 'Feedback Sent' icon appears next to the candidate once feedback has been processed.
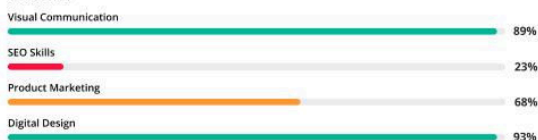

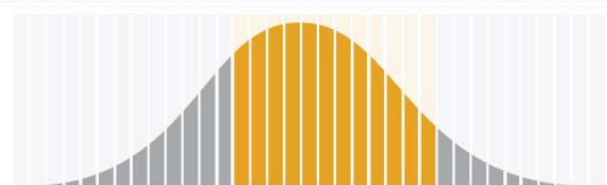

Real insights & Feedback

- **Summary:** Find quick stats along with an overview of the candidate's overall performance.
- **Skill Scores At A Glance:** See a bar graph detailing the candidate's performance across all skills.
- **Include/ Exclude Rank:** Customers can include or exclude the candidates' overall rank in both these sections.
- **Overall Scores:** Candidates can review their performance (low, medium, high) on a bell curve covering all skills in the assessment.
- **Skill Scores Breakdown:** Candidates can review their performance (low, medium, high) on a bell curve per individual skill in the assessment.

A few things to note:

- **AI Calculation Setting:** Allow a minimum of 3 days for AI calculations to settle before sending feedback.
- **Rank Confidentiality:** Customers can choose to remove the candidate's rank from the feedback.
- **User-Friendly Interface:** The 'Feedback Sent' icon provides a visual confirmation of processed feedback.
- **Customer Control:** The Candidate Feedback feature is off by default. Admins retain control once turned on over the feedback process
